Bathroom Faucets
For Hospitality and Residential Use

Always With Joy

Single Handle Faucets For Your Bathroom Design

A faucet is not just an outlet device for drinking water. It is a part of interior finishes and also gives a good impression in your bathroom.

This product series has wide different images. Each model expresses its impression with metallic finishes and its figure from curves and polished edges. You will find a suitable faucet for your bathroom design.

4 Impressions

For a wide range of design themes, each faucet has its impression.

Simple Design

Our lavatory faucets are matched with Minimalist, Zen, Transitional and Contemporary style.

4 Color Finishes

To harmonize with other interior elements in the same room, the faucets have four color shades.

-  Chrome : Neutral Color
-  Black : Cold Color
-  Brushed Nickel : Warm Color
-  Polished Brass : Warm Color
