Elegant appearance with smart functionality, we listen to customers to realizing exclusively customized kitchen designs which precisely meet their needs.
Superior Artworks!

Goater, Irreplaceable!

Advantage

Professional kitchen cabinets manufacturing factory: We have our own professional factory and operation headquarters in Taiwan to monitor quality and control.

We have the expertise in kitchen cabinets to assist you and through one-stop service, provide a complete service plan.

Service process : professional planning consultation → confirm cabinet size → product selection → factory manufacturing → shipment

Strictly select environmentally friendly and low formaldehyde Panels: select European imported E1 / F☆☆☆☆ panels, to protect your health. (F☆☆☆☆ is the highest standard of JIS (Japanese Industrial Standards) in Japan, the formaldehyde emission $\leq 0.3\text{mg/L}$, and the formaldehyde content is close to zero.)

Austria's top hardware: "Blum" Soft-close hinges and buffer drawer slides series are standard hardware for kitchen cabinets; the drawer slides can be opened and closed up to 100,000 times under full load, and the service life of the hinges can also withstand 200,000 door opening and closing movements, Selected hardware that brings you a smooth and quiet comfortable use experience.

Professional machinery and equipment: Use the leading machinery and equipment for wood processing machinery, and cooperate with professional technicians to improve work efficiency, production capacity and quality

Professional SOP assembly process: incoming inspection → assembly line → In-factory adjustment → quality management → shipping packaging.

Certification

Starting from the concept of "home", we attach great importance to the quality of your home life and insist on introducing high-quality Austrian KAINDL sheets, an environmentally friendly board with the lowest formaldehyde content and highest moisture resistance coefficient in compliance with Taiwan standard F1 grade; And through a number of SGS inspections, in line with domestic and foreign environmental protection label certification, protect your health, and do your best for environmental protection.

#01 GREENWICH

Charming and lovely smile can be seen while River Thames flows through the Greenwich, a symbolic and historical city in London. The original design concept of curve shaped “Greenwich Series” was coming from there.

Red brick wall brings out the atmosphere of Victorian era, a remarkable Industrial Revolution that lead the industry and life into a modernized new age.

Retro classical outlook figured with modern functional equipment and eco-friendly materials, from “Greenwich”, you won’t feel the conflict of age, but rather a cultural fusion, leading Kitchen life into a new style of enjoyment.

#02

GREENWICH BLACK

The kitchen cabinets have an unadorned look with a focus on practical design and craftsmanship.

Each door consists of a recessed panel and a four-piece wood frame, as a symbol of shaker style in simple lines and underrated elegance.

A marble wall panel matches perfectly with a CaesarStone quartz countertop.

Appliances, such as Teka Oven, Coffee Machine and Hob, can be properly installed in your loft and open kitchen area.

Blum Tip-On drawers also assure the functional use of equipment combining with the eco-friendly kitchen design.

While the retro classic outlook harmonizes with technology, a relaxed and modern home life is shown to be the feature of Greenwich kitchen.

The classical frame-shaped door panel match with the three-dimensional modeling line panel, which enriches the aesthetic feeling and increases the visual layering.

Upper Cabinet with Lifting Rack

The constant-speed spring device can make the pull basket have a slow-down effect when it is lowered, and it can also save effort when pushed up to return, make it easy to take out objects and increase the utilization rate of the cabinet space.

The lifting rail can make the hanger drop to the height within reach at will, and it is very convenient to access items.

Austrian Push-to-Open Drawer Slides Cabinet System Furniture

Provides a new option for handleless drawers. The drawer can be opened easily and effortlessly when pressed. It combines design and practicability, and adds a cushioning effect to improve durability.

Blum TANDEMBOX plus drawer series

It can be placed between the living room and the kitchen, with the shape of a general cabinet, the convenience of a drawer, and a larger storage space.

URBAN

Urban is marked by its clean lines and solid colors becoming the highlight of your house!

E0 grade door panels, based on the highest standard for formaldehyde emission, have matte finishes to prevent fingerprints on. The Neolith countertop is resistant to scratching, high temperatures, chemicals and UV rays in addition to being stain resistant and featuring its porosity of nearly 0%.

A built-in lighting system - motion sensor drawer lights and cabinet touch lights to illuminate the storage and work space. There are also a variety of functional products, such as a lift up dish dryer and cupboard, and XPOWER track sockets. The highest level of aesthetics, functionality and safety fully satisfies "urban" people.

Electric Rack

Electric lifting Dish Dryer

Drawer Light

TAICHI

Tai Chi is an ancient Chinese philosophy about the natural world and is one of the central elements of traditional Chinese culture." The "Tai Chi" series of Goater Kitchen is based on this kind of thought and philosophy, linear shape, simple but elegant; functional but intuitive operation, simplifying all the complicated elements back to origin. Specially selected materials and craftsman's no compromised work, make "Tai Chi" a unique and touched artwork.

The base storage using toe kick drawer with push-to-open drawer slides can store heavier seasonings or pots and increase the storage capacity by about 12%.

The toe kick drawer with push to open drawer slides is also used with "soft-close blumotion", making doors close softly and effortlessly. The tip-on blumotion has full-opening buffer low pumping with heightened drawer glass sides " to increase the drawer side support, increase the storage capacity, and keep the container from falling outside. The push-to-open drawer slide rail can carry 30~50kg, which is more durable than other brands on the market and is not easy to rust.

The Toe kick drawer with push to open drawer slides and drawer glass sides is selected from the Austrian brand blum, which has been tested the repeated pull-and-push test of more than 100,000 times, and its durability is much better than other brands' Toe kick drawer with push to open drawer slides domestically and globally.

#05 LOHAS

This ideal kitchen planning makes the cooking process easier and more relaxed.

The door panels have a pure white glossy texture, with a light color to match any style.

Oven and microwave cabinets are available in different configurations and various sizes to accommodate kinds of appliances, pots and pans.

The single sink made in Japan has a large space and basket easy to wash pots and pans.

The blind corner cabinet includes a Lazy Susan to make the most of kitchen space access storage easily.

LOHAS creates an opportunity for people with a small budget to cook to their heart's content.

- The door panels have a pure white glossy texture, with a light color to match any style.
- Oven and microwave cabinets are available in different configurations and various sizes to accommodate kinds of appliances, pots and pans.
- LOHAS system furniture creates an opportunity for middle class people with a small budget to cook to their heart's content.

The single sink made in Japan has a large space and basket easy to wash pots and pans.

Swing Tray in Corner Base Cabinet for U-&L-Shaped Kitchen

The swing tray in corner base cabinet solves the problem of opening collision of the two door panels and L-shaped kitchen cabinets at the corner and use the corner space more efficiently. The L-shaped kitchen cabinets can be pulled directly, and the deep kitchen corner base cabinet storage can be seen at a glance.

The swing tray is with special mechanism so easy to open buffer low pumping. It is easy to be accessed to the depth storage and increases the storage usage rate. It can load 15 kg.

#06 AUAR

A bar design is the highlight of AURA series creating a laid-back and cozy atmosphere perfect for a Friday night house party.

The kitchen can be transformed into a lounge bar by the extension of functional design, lengthening the island into a dining table and bar design. The high gloss lacquer doors of the island and cabinets combine the wood dining table creating an emphatic contrast with a sleek, clean, modern feel. A steam collector effectively exhausts steam and extends cabinet life. Drawer dividers help organize the contents inside the drawers, and keep glassware and tableware from sliding around and bumping into each other. The classic chic AURA kitchen will be your favorite space to chat with friends and unwind after work with a drink.

#07 VICTOR

Victor, a kitchen strengthens family's relationship
People in Nordic countries think highly of Family Relationship, considering Kitchen as the core of daily life. They have fun to cook meals, bake desserts with their families and take it as pleasure.

VICTOR series using white wood panels, showing the Nordic atmosphere, and tall cabinets design that could store all kitchen appliances and goods properly. Large door design removes the excess lines, and electric sliding doors that makes it easy to open the doors without any effort. Victor Series turns the direction of traditional L-shaped kitchen, offering an open-plan space.

Everyone could enjoy cooking entirely in the kitchen, whether for Parents and Kids or for a light meal cooking.

Dressing Room Furniture Systems

The open wardrobe in the master bedroom is designed with gray leather as the main color, which is rendered with warm yellow light, showing a low-key luxury taste. The children's room uses simple and natural larch wood grain, which adds comfort to the space. Through the column hardware, pull baskets, hanging rods, etc., the clothes can be arranged in an orderly manner, creating a dressing storage space with both fashion and beauty.
