

Recommended points • Features

Delivers the appearance of tile or brick, that a carpenter can install (No plastering required)

Installation can be accomplished simply with adhesive and pin nails as per manufacture instructions.

Superior soundproofing material. One layer Gravio delivers an STC of 56, two layers 59.

You can easily cut out even complicated fits with a hand saw.

The weight is roughly 66% lighter than sheet rock and 40% lighter than standard wall tile.

Compared to general combustible materials, the weight has been reduced to achieve increasing in size.

Larger product size than ordinary tiles and stones. (3/8"×18"×6-0')

Obtained combustible material certification
Class A Fireproof (ASTM E84 tested), made from "Dallite" composed of mineral fibers and volcanic vitreous deposits.

GRAVIO embossed type

3 Reasons Why GRAVIO embossed type is Selected

Easy Installation Without Plastering!

It is possible to install the same way as a basic veneer. Compared to installing tiles, there is no need for a professional plasterer which reduces personnel costs and makes process of work easier to manage.

Fulfilling Speedy Installation!

Although there are always tight deadlines to complete installation for both public and commercial facilities, you can have smooth operation and reduce the time and cost for all the processes by using GRAVIO embossed type, which is light and easy to carry.

Lightweight and Great Materials for Building!

Compared to installing tiles, GRAVIO embossed type is light and reduces the burden for building, especially larger install areas.

**There are many advantages when using GRAVIO embossed type across varying applications.
The use of GRAVIO embossed type in different facilities has been steadily increasing!**

CLINIC

Clean and Tidy Front Desk

It is necessary to have a good and clean impression for any front desk. GRAVIO embossed type performs beautifully by adding a refreshing effect and pleasant taste, featuring both a naturalness of stone pattern and indirect lighting.

OFFICE

Adding Spaciousness for Entire Wall in Atrium

Create an authentic and unique space by using high-quality products from DAIKEN. Warm wood texture where guests can relax and shadow from wood grain patterns bring spaciousness and a feeling of three-dimensionality to an entire space.

COMMERCIAL FACILITY

Jewelry Store with A Great Combination of Light and Shadow

GRAVIO embossed type brings accent lighting to a wall of counters by dimming the entire space. With the effect of lighting, gives a more gorgeous and luxurious impression to jewelry or other display case products.

COMMERCIAL FACILITY

Speciality Shop with Shining Owner's Great Uniqueness

Creating a unique space is the key to produce a sophisticated specialty shop. Installing GRAVIO embossed type on a wall as visual effects brings both products on display and interior design to a higher level of class and quality.
